EDUCATION

California State University, Fullerton

Bachelor of Science, Computer Science

Aug 2016 - May 2020

TECHNICAL SKILLS

- **Languages:** Python, JavaScript (ES6), HTML, CSS
- **Libraries and Frameworks:** React, Express.js
- **Tools and Technologies:** MongoDB, Node.js, Git, MySQL

PROJECTS

Personal Website

- Built a portfolio website built with React and JavaScript. Styled with CSS and React Bootstrap. Includes a method for email contact, resume link, and links to networking/social media sites.

Billboard Top 100 Playlist

- Built a program that web scrapes the top 100 songs of an inputted date from www.billboard.com. Song names are used to create a private Spotify playlist on the user account using OAuth and Spotify API.
